Helping You Communicate Better

Innovation
The Right Choice

Your communications system is much more than a telephone network. It's your vital connection to current customers and new customers. It's your key to higher productivity, greater profitability, and enhanced efficiency. It's an invaluable tool that is central to your operations from the second you open your doors— and beyond.

A system that fundamental to your business, deserves the innovation, versatility, and investment protection Toshiba business communication solutions deliver. Our full line of telephones gives you the choices you need, both now and as your business grows. And Toshiba telephones deliver exceptional compatibility with virtually all Toshiba systems, even when you upgrade to a larger system. Your investment is always secure.

Choose innovation. Choose investment protection. Choose Toshiba.

Extend. Broaden. Advance.
IP Telephony

Long ago, Toshiba envisioned a world with no boundaries. No telephone cords, cabling, or wiring restricting the way companies work and the way they do business. Toshiba IP telephones extend full telephone system functionality to any location in the world via your private intranet or the Internet. Remote users even enjoy the same productivity features as locally connected extensions. Now that's power and versatility—a true Toshiba advantage.

Listen. Decide. Progress.
Digital Speakerphones

Are you using the handset or the speakerphone? Thanks to state-of-the-art Toshiba technology, your callers will have a hard time telling.

You'll appreciate ergonomic design for exceptional comfort, easy-to-read feature buttons, and programmable buttons that condense operational sequences into single-button ease.

For busy call environments, choose the Toshiba 20-button digital speakerphone for the ability to access numerous features with push-button simplicity and add additional easy-access features with the optional 20-button Add-On Module or 60-button DSS Console. Available in your choice of two colors.

See. Hear. Evolve.

Digital Display Speakerphones

Toshiba Digital Display Speakerphones make using your business communication solutions simple. Large easy-read LCD screens display feature-prompting information, helping you manage your telephone easier. One-touch programmable buttons save time and give you faster access to advanced calling functions. It's all designed to enable employees to work smarter, minimize training time, and take productivity to new levels.

Select from the 20-button or 10-button 2-line display model, or the 14-button 8-line display model. Available in your choice of two colors.

Go. Unite. Produce.
Wireless IP Solutions

Take full telephone functionality with you, whether it's down the hall or into the conference room, regardless of the communication device you are using. Toshiba gives you the power to stay connected using wireless IP telephones and SoftIPT software clients that run on your laptops, tablet PCs, or PDAs via your wireless local area network (WLAN). You can roam anywhere your WLAN goes and maintain voice and data functionality. It's an exceptionally easy, remarkably cost-effective solution that makes the most of your current resources.

Toshiba cordless digital telephones further enhance your company's ability to communicate. Connected to your legacy telephone wiring, you can take full digital desk phone functionality with you, and even switch between your cordless and digital desk telephones during a call. And thanks to spread-spectrum and narrow band technologies, Toshiba cordless digital telephones safeguard your communications.

Cordless digital 900 MHz narrow band telephone provides excellent range at an affordable price

Cordless digital 900 MHz spread spectrum telephone provides maximum range and security

Simplify. Centralize. Perform.
Strata Attendant Console

Processing incoming calls with speed, efficiency, and accuracy is critical for businesses with high call volumes. The Strata Attendant Console makes it simple. Answer calls with extraordinary ease using a headset or a handset. Access high-performance features effortlessly via keyboard or screen button controls. The Strata Attendant Console displays caller identification and dialed number information, so your receptionist will know who is calling and where to transfer each call. Plus, station status, call timer, name and number directories, and other key information is always on display or available with a mouse click, giving attendants the ultimate in call handling capability.

The Strata Attendant Console works seamlessly with your existing Toshiba communications system. In conjunction with the Toshiba Strata CIX system, simply use it like a digital telephone connected with local telephone wiring. To take advantage of IP connectivity, plug into the Toshiba Strata CIX via IP from anywhere on your network. Either system enables you to seamlessly integrate up to four consoles, dramatically increasing your call handling capabilities by automatically distributing incoming call load to multiple attendants.

Fully Loaded With Invaluable Features:

• Answer Button with Answer Priority and Queuing

• Emergency Call Priority

• Programmable Buttons give you one-touch access to most-used features

• Automatic Day/Night Mode Switching

• Message Center/Voice Mail Transfer

Trust the Leader.

Toshiba America Information Systems brings together the expertise and know-how of the company's Digital Solutions Division, Digital Products Division and Storage Device Division to create some of the world's most innovative business communications solutions, from mobile computing and leading-edge telephony products to storage and imaging technologies.

The results of this leadership, sound product development, and strategy are telephone solutions that enable today's enterprises to take full advantage of the numerous tools, devices, and voice and data communications technologies available now—and in the future. Because Toshiba is behind some of the most advanced and popular office technologies, from copiers and laptops to network security cameras, projectors, DVD/CD recordable products, and telephone systems, you can count on global solutions that seamlessly integrate all your key business needs.
